

## TRANSPORT AND SALES NEWS

Playa Marine's Custom Marine Transport division enjoyed seeing a lot of country recently. As a specialized licensed and insured carrier using customized boat handling equipment, able to haul and water launch or land block your Powerboats and Sailboats up to 45 feet long, Houseboats to 60 feet of length and of course your boats that are on their own trailers. Playa Marine really has a passion for Boats and hauling them safely and efficiently is what we at Playa Marine enjoy the most.

Playa Marine has found that the bulk of the boat hauling is done in the spring and fall and has grown to have many customers that book well in advance for their annual launch and haul outs. Playa Marine has a customer base on the following lakes in BC: Okanagan, Kalamalka, Wood, Skaha, Shuswap, Arrow and Kootenay Lakes and the big beach of Vancouver and area.

Playa Marine had the pleasure of selling a beautiful previously-owned 15' 6" X 50' Myacht houseboat to a customer from Winnipeg and then delivered the houseboat to Northern Harbour Marina at The Lake of the Woods near Kenora, Ontario. This boat required three pilot trucks and could only be moved in the middle of the night in BC because it was so wide!

Playa Marine delivered a SunCruiser Houseboat from Sicamous, BC to Eagle Point Resort near Lac La Ronge, Saskatchewan in the spring of 2009. The customer was a fellow truck driver and was very impressed with our custom houseboat trailer and fair rates.

Playa Marine has moved sailboats on their own trailers from Edmonton to Summerland and a sailboat from LaConner, Washington, and one from Saskatchewan was moved using our own custom hydraulic Con-O-Lift boat hauling trailer with Sailboat rigging.

Playa Marine now offers service to USA, including Washington, Oregon, Arizona, and Idaho. Playa Marine will interline with US based carriers that can't or won't cross the border.
